

Delivering Explicit and Systematic Instruction

Orientation / Review

- Present learning objectives, explain procedures, activate student's prior knowledge
- Invitation to learn, anticipation guide

Presentation

- Present a new concept or skill
- Model, demonstrate it using concrete examples
- Show step-by-step practice
- Think aloud

Guided Practice

- Teacher monitors student practice
- Correct errors or misconceptions
- Reteach if necessary
- Group work, tribes, and cooperative learning

Independent Practice

- Students practice on their own
- Teacher provides multiple practice sessions
- Students integrate new concepts and skills
- Teachers monitor student progress individually
- Journal writing, discovery
