

Teaching concepts by putting them to music is a very effective way of helping your students remember the concepts quickly and easily. Here are a couple samples:

MONTHS OF THE YEAR
(Ten Little Indians)

January, February, March and April
May and June and July and August,
September, October, November, December.
These are the months of the year.

ROCK CYCLE
(Ten Little Indians)

Sedimentary's made from layers
Igneous rocks they come from lava,
Put the two together
And add heat and pressure.
Those are called Metamorphic.
