

Find the big L

(Tune of Found a Peanut)

Which is right and which is left?
There's a way for me to know...
I just look and find the big L
It will help me so I know.

Hold up one hand then the other
One of them will match the L
The one that does is my left hand
So the other is my right.

Find the big L
Find the big L
It will help me so I'll know
Which is left and which is right,
All I do is find the L.
